PROFESSIONAL SUMMARY

Computer Science graduate with a strong foundation in software development, business analysis, data analysis, and quality assurance. Experienced in developing web applications using React.js, Node.js, Express.js, and MongoDB, while analyzing application requirements and translating them into functional features. Proficient in SQL, Microsoft Excel, Power BI, and Tableau, with knowledge of REST APIs and Agile/Scrum methodologies. Seeking to apply technical, analytical, and problem-solving skills in a QA Business Analyst role involving requirements analysis, application validation, and collaboration with business and IT teams.

EDUCATION

- Kakatiya Institute of Technology and Science, Warangal, Telangana** 2022 – 2026
Bachelor of Technology in Computer Science and Engineering CGPA: 7.6/10
- SR Junior College** 2020 – 2022
Intermediate Percentage: 86%
- Ekashila Techno School, Hanamkonda** 2020
SSC CGPA: 10/10

ACADEMIC PROJECTS

- Quiz Application – MERN Stack**
MongoDB, Express.js, React.js, Node.js
 - Developed a full-stack quiz application using React.js, Node.js, Express.js, and MongoDB with a responsive user interface and efficient data management.
 - Analyzed application requirements and translated them into functional features including user authentication, dynamic question rendering, scoring, and real-time leaderboard functionality.
 - Integrated frontend components with backend REST APIs and MongoDB to support end-to-end application workflows.
- Educational Blog – MERN Stack**
MongoDB, Express.js, React.js, Node.js
 - Developed a full-stack educational blogging platform using React.js, Node.js, Express.js, and MongoDB.
 - Analyzed content-management requirements and translated them into functional features including categorized posts, user authentication, comments, and rich-text content management.
 - Developed and integrated backend REST APIs for content management and worked with MongoDB for application data storage and retrieval.
- Online Exam Proctoring System**
ReactJS, Node.js, Express, MongoDB, Python, OpenCV
 - Developed a web-based examination proctoring system using ReactJS, Node.js, Express, MongoDB, and Python.
 - Analyzed the online examination workflow and identified functional requirements for secure authentication, candidate monitoring, and suspicious-activity detection.
 - Implemented automated monitoring and suspicious-activity detection using computer vision and machine-learning techniques to support examination integrity.

TECHNICAL SKILLS

Business Analysis & QA: Requirements Analysis, Functional Requirements, Workflow Analysis, Functional Validation, Quality Assurance

Programming Languages: Java, Python, JavaScript, HTML, CSS

Web Development: React.js, Tailwind CSS, Node.js, Express.js, Flask

Databases: MySQL, MongoDB, SQL

Data Analysis & Visualization: Microsoft Excel, Power BI, Tableau, Data Analysis, Data Visualization, Reporting

APIs: REST APIs, API Requests, Backend Integration

Methodologies: Agile, Scrum

AI/ML: Machine Learning, OpenCV, TensorFlow

Coursework: Object-Oriented Programming, Database Management Systems, Data Structures and Algorithms

CERTIFICATIONS

- Salesforce Certified Agentforce Specialist** – Trailhead Academy Salesforce
- Programming Through Java** – Elite Certificate NPTEL
- Java Programming Language** – Basic HackerRank
- Python Programming Language** – Basic HackerRank

ACHIEVEMENTS

Participated in hackathons involving problem-solving, artificial intelligence, and web-based solutions.

LEADERSHIP & ACTIVITIES

Student Organizer

Coordinated technical events for the university tech fest, demonstrating communication, planning, and coordination skills.

Student Coordinator

Organized events as part of the NSS club, demonstrating teamwork, planning, and coordination skills.
